

Windows paper management utility Installation and Removal Instructions ReadMe

This ReadMe file contains instructions for installing the paper management utility (PMU) on Windows systems. The PMU provides the user interface to manage paper catalogs and PPD files for your particular job streams and customer requirements. You must have a PPD file already installed on your system to use the *Manage Paper Size* or *Merge Paper Sizes* functions of the PMU.

The PMU can be installed on the following operating systems:

- Windows 2000
- Windows XP
- Windows Vista

The following installation procedure assumes you have a zip program installed on your system. Before proceeding, verify with your Windows administrator that you have the appropriate privileges to install the PMU.

To install the Windows paper management utility:

1. Close all open applications.
2. Do one of the following:
 - If you are using the Printer Drivers, PPD Files, and Print File Downloader Software CD to install the paper management utility, open the ReadMe.html file and follow the instructions.
 - If you are not using the CD, download and save the .zip file to a folder on your Hard Drive, and continue with this procedure.
3. Navigate to the folder into which you saved the .zip file.
4. Double-click PMUW32_<brand>_xxxx.zip.
A window appears and displays the contents of the zip file.
5. Extract the files to a folder on your Hard Drive.
6. Close the zip program.
7. Navigate to the folder into which you extracted the files.
8. Double-click setup.exe.
The Welcome to the InstallShield Wizard for <Product Name> paper management utility window appears.
9. Click Next.
The Software License Agreement window appears.

NOTE: Click Print to print the license agreement for your reference.
10. After reading the license agreement, click Yes to accept the license agreement.
The Choose Destination Location window appears.

NOTE: Click Browse to change the destination folder, if necessary.
11. Click Next.
The Select Features window appears.
12. Click Next.
The Setup Status window appears, followed by the InstallShield Wizard Complete window.
13. Click Finish.
The PMU is ready to be used.

To remove the Windows paper management utility:

1. Open the Windows Control Panel.
2. Double-click Add/Remove Programs or Add or Remove Programs.
The Add/Remove Programs or Add or Remove Programs window appears.
3. Select the <Product Name> paper management utility to remove.
4. Click Remove.
The Confirm Uninstall window appears.
5. Click OK to continue the removal.
The Uninstall Complete window appears.
6. Click Finish.
